Integrated Antimicrobial  
Stewardship (IAS) Practice  
Addendums

**Invitations**

**Theme**  
Preventing  
Antimicrobial  
Resistance Together

**Greetings!**

World Health Organization (WHO) every Year in the month of November celebrates World Antimicrobial Awareness Week (WAAW) with the aims to increase global awareness of Antimicrobial resistance (AMR) and to encourage best Antimicrobial stewardship practices among the general public, HCWs, and policy makers to avoid the further emergence and spread of AMR. **AIIMS Rishikesh is promised** to practice Integrated Antimicrobial Stewardship that targets to improve understanding towards right hospital infection prevention and control practices, right microbial diagnostic steps, and optimal use of antimicrobials.

Series of events are scheduled to celebrate the week; **You are invited** as a HCW, a care taker, or even as a patient (one becomes at point of life). You will surely get more knowledge by participating any event and lead a healthier life by practicing any learned advices.

**Venue: Virtual, AIIMS Rishikesh, and Community area**

**Organizer: Dept of Medicine and Nursing College (+ other Dept)**

World Health Organization

Preventing  
Antimicrobial  
Resistance Together

Spread Awareness, Stop Resistance

**LET'S TAKE ACTION  
TO PROTECT HUMAN HEALTH**

# **“World Antimicrobial Awareness Week” Celebration in AIIMS Rishikesh with Advices**

- 1) Antimicrobial is running out: save it
- 2) Antimicrobial can be saved: Do not take without order of a doctor
- 3) Antimicrobial resistance is increasing: acknowledge it
- 4) Resistance can be curtailed: Do not use where not indicated like viral infection, Do not under use antimicrobials, Do not use leftover antibiotics
- 5) Best method to save Antimicrobial and curtailed Resistance: Use of Hand hygiene, Cough hygiene, Effective waste treatment, and timely Vaccination
